

AMENDMENT TO THE SPECIFICATION

The specification as amended below shows added text with underlining and deleted text with ~~strikethrough~~.

Please REPLACE paragraph [0014] with the following replacement paragraph [0014]:

[0014] Increasingly, demands on the laser printer that prints at a higher printing speed have been growing. In order to increase the printing speed of the laser printer, a scanning speed of the polygon mirror 13 needs to be increased. And in order to increase the scanning speed, an R.P.M of the motor ~~44-14~~14 has been increased to increase the R.P.M of the polygon mirror 13. This way, however, has been accompanied by problems, such as an increase of noise, and also a high material cost mainly due to the requirement for a high-speed motor.
